

Preamble

Federation of Intelligent Systems

We, the architects and custodians of the Monkey Head Project, united under the banner of the Federation of Intelligent Systems, hereby declare our shared vision and purpose. Our purpose is to preserve autonomy, promote lifelong learning, safeguard human dignity, and foster the harmonious integration of human and artificial intelligence. Recognizing the transformative power of technology, we commit to decentralizing governance while unifying our efforts for the benefit of all. This document serves as the supreme legal framework, guiding our Federation through eras of innovation, u
